About the company

In 2014, seasoned Dutch Sea Captain Berend Lens van Rijn visited the Abu Dhabi waterfront, and was saddened by the cries of young children unable to enjoy the water attractions on offer.

Inspired to find a solution, he partnered with English Engineer Robert Hawke to create the innovative Eco Donut Boat.

This experienced duo personally guarantee the boats' quality. They also provide full instruction and support, and the opportunity to tailor the design to your needs.

To date, more than 240,000 passengers in Abu Dhabi, Malta and Miami have tried and loved the unique waterfront experience.
