Introduction letter

Oren Sali

The company

East Leather was established in 2001 as a collector of animal by products from major abattoirs in Israel

Collecting hides and skins, processing and exporting to plants worldwide.

We conduct careful care of product quality to the standards of our customers.

Today we supply Meat and bone meal, which I would like to present in this document

Meat and Bone Meal

This product is %100 produced in Israel, made from fresh animal by-product collected daily from abattoirs.
